

VUI UX Challenges

Alexa isn't context aware. So it was essential to break up the task in order to make the interaction as natural and intuitive as possible.

Custom Slot Types (Optional)

Custom slot types to be referenced by the Intent Schema and Sample Utterances. For general information about custom slots, see [Custom Slot Types](#).

Add Slot Type

Sample Utterances

These are what people say to interact with your skill. Type or paste in all the ways that people can invoke

Up to 3 of these will be used as Example Phrases, which are hints to users.

```
1 WhatAreMyTasksIntent yes
2 WhatAreMyTasksIntent yup
3 WhatAreMyTasksIntent sure
4 WhatAreMyTasksIntent yes please
5 MyNameIsIntent {Name}
6 CheckOutIntent check me out
7 AMAZON.HelpIntent check me in
8 AMAZON.HelpIntent help
9 LaunchApplication open {AppName}
10 LaunchApplication launch {AppName}
11 LaunchApplication start {AppName}
```

Ask Jarvis to check me in

who should i say...

Kanchi

Hi Kanchi, do you want me to..

Yes
